PROGRAM:

Adam Holland was our speaker and he gave an exciting talk on "cyber safety". Adam heads up the Special Investigations Unit at the Fort Smith Police Department... a role that includes the Juvenile Detectives, the Sex Offender Investigations and the Cyber Investigation Unit. His units work in concert with Federal, State and local crime units and pursue cases such as: Child Exploitation, I.D. Theft, Computer Hacking, Drug Trafficking, Missing Persons, Burglary, and even Murder. Adam has developed a state-of-the-art computer lab where they can do anything from monitoring chat rooms to analyzing computers seized as evidence.

HUMOR:

A physician, an engineer, and an attorney were discussing who among them belonged to the oldest of the three professions represented. The physician said, "Remember, on the sixth day God took a rib from Adam and fashioned Eve, making him the first surgeon. Therefore, medicine is the oldest profession."

The engineer replied, "But, before that, God created the heavens and earth from chaos and confusion, and thus he was the first engineer. Therefore, engineering is an older profession than medicine."

Then, the lawyer spoke up. "Yes," he said, "But who do you think created all of the chaos and confusion?"

FUTURE PROGRAMS:

June 15th, Al Whitson, Fort Smith Information Technology Department

June 22nd, Michelle Hall, Fort Smith Entrepreneurial Development Center
