### HUMOR:

There once was a business owner who was interviewing people for a division manager position. He decided to select the individual that could answer the question "how much is 2+2?"

The engineer pulled out his slide rule and shuffled it back and forth, and finally announced "It lies between 3.98 and 4.02".

The mathematician said "In two hours I can demonstrate it equals 4 with the following short proof."

The attorney stated "In the case of Svenson vs. the State, 2+2 was declared to be 4."

The trader asked "Are you buying or selling?"

The accountant looked at the business owner, then got out of his chair, went to see if anyone was listening at the door and pulled the drapes. Then he returned to the business owner, leaned across the desk and said in a low voice "What would you like it to be?"

For my friends, Paul and David:

"Any man who is under 30, and is not a liberal, has no heart; and any man who is over 30, and is not a conservative, has no brains."

- Sir Winston Churchill (1874-1965)
