### **PROGRAM:**

The program was quite interesting. Delivered by our own Buddy Acoach, we learned about airport security. Since 9/11 the Department of Homeland Security has built an agency (TSA) that oversees and enforces the security of all airline passengers. Of particular interest is the concept that once you gain access to the passenger lounge at Fort Smith; you have access to every gate in the world. Buddy gave us some basic travel tips to make life easier at the airport: 3/1/1. That means you can possess liquids or gels as long as they are in three ounce or less containers and all containers can fit into one clear plastic, zipper bag that is no larger than one quart. Happy traveling!!

### **HUMOR:**

Little League baseball is a very good thing because it keeps the parents off the streets.
